

# Design. Fly. Save a Species.

## Team AREND and the Wildlife Competition UAV Challenge

Boulder. Helsinki. Pretoria. Stuttgart. An international team of top students converges to design, build and fly a specially instrumented unmanned aircraft (UAV) that shall help Rangers fight Rhino poaching in South Africa. The competition keeps our focus sharp, and our aim true.

Join us for an informational Meetup at the  
University of Colorado, Boulder Engineering Center.  
Be part of the solution.

Tuesday, February 18<sup>th</sup>, 6pm in ECCR 200 @ Engineering Center
